James City County Service Authority
101 Mounts Bay Rd
Williamsburg, VA 23187

As owner of 114 Cardinal Acres Dr, I agree to implement the following water conservation agreement as requested by James City County.

Storm Water runoff

- Utilize Rain Barrels at the discharge of the building rain gutters
- Install permeable pavers in parking areas
- Provide 75+ feet infiltration trenches with amended soil in an effort to slow the rate of travel of and increase the infiltration of rain water

Water Conservation Standards

- Utilize native and drought tolerant planting when installing landscaping (James City County Coastal Plant list as provided will be used as a guide)
- No irrigation system is proposed
- Only new water efficient fixtures and appliances will be used in the proposed building
- Independent water meters will be installed. Tenants receive bills for water usage from JCSA thus promoting conservation.
